Department of Computer Systems Engineering
University of Engineering and Technology, Peshawar

### Task:

Interface Calculator Keypad with 8051 Microcontroller and perform basic operations of addition, subtraction and multiplication.

#### Code:

```
#include <reg51.h>
#include <stdio.h>
//Function declarations
void cct_init(void);
void delay(int);
void lcdinit(void);
void writecmd(int);
void writedata(char);
void Return(void);
char READ_SWITCHES(void);
char get_key(void);
//************
//Pin description
P2 is data bus
P3.7 is RS
P3.6 is E
P1.0 to P1.3 are keypad row outputs
P1.4 to P1.6 are keypad column inputs
//*************
// Define Pins
//**************
sbit RowA = P1^0; //RowA
sbit RowB = P1^1; //RowB
sbit RowC = P1^2;
                   //RowC
sbit RowD = P1^3;
                   //RowD
sbit C1 = P1^4;
